

Business Development

Atlantic Leap can get your business off the ground in the UK and Europe, acting as your outsourced business development team.

We can identify and pursue potential partners and negotiate deals, keeping closely aligned with your planning and processes. We can advise as to local market conditions which may impact your plans in unforeseen ways.

Once deals are signed, we can act as a local point-of-contact for account management, too.

And when your UK and European business model is proven, and you're ready to hire, [we can recruit](#) the right full-time employees for you to take the handoff and run with the ball.

Atlantic Leap helps you build commercial momentum quickly, so your company can have a fast start in the market.
